

One of the best ways to grow your construction or transportation company is to attend this training by the US Department of Transportation. You will hear from experts in construction accounting, construction law, estimating, project management, surety, bonding, marketing and access to capital. You will also meet contacts that can tell you about the upcoming projects and how to bid on them. This program is free to companies that qualify.

EACH OF THESE COMPANIES GREW AFTER PARTICIPATING IN THE BUILDING BUSINESS CAPACITY PROGRAM.

Chacon Paving

"I walked into this program with a contract and no way to get bonded. I signed my bonds for this contract. Without them, I don't know that I could have done it."

Michael Leathers

Utah Barricade

"I learned a lot of things about bidding. I think it could benefit anybody that's in the construction field to come take this course."

Doug Coleman

Security 101

"It was a great investment of three days. It was much more than bonding. Great class. Lots of good data."

Nancy Ford
